LETTER FROM LARRY

Dear Valued Member,

I hope this note finds you doing well and having enjoyed another summer that went far too fast. As we look back at 2017 and the first half of 2018, we are working hard to continue to make changes and additions to serve our members and community better. We have added a new squash court, expanded our program offerings, are in the process of renovating our child care playground, purchased new pieces of cardio equipment, hired a full time Aquatic Director, and hired our new Membership/Marketing Director to name just a few changes. We are also beginning to offer school age child care in three elementary schools within the Greater Latrobe school district this fall. We will be opening the YMCA on Sundays beginning September 9th, and continuing to change and evolve as an organization based on community need. The above is only a sampling of our accomplishments this past year as everything that we do provides a positive impact on our communities and our members. Lastly, we track our visits each day, each month, and each year in order to measure our participation. In 2017, we had nearly 77,000 duplicated visits and we are on pace to bypass that mark in 2018! We cannot tell you how much we appreciate all of your support to ensure that our YMCA remains a valuable community asset for years to come. Thank you.

Sincerely,

Larry M. Stormer

WHAT IS TRX? (TOTAL RESISTANCE EXERCISE)

It was developed by Navy Seal, Randy Hetrick as a way to stay in peak condition while on mission with no access to fitness equipment.

The TRX tool is the Suspension Trainer. The Suspension Trainer single point attachment provides the ideal mix of support and freedom of movement to train strength, endurance, balance, coordination, flexibility, power and core stability all at once and across a wide range of intensity.

Exercising on the Suspension Trainer integrates strength, mobility and balance into a single dynamic format that exploits neuromuscular responses and maximize the benefits of bodyweight exercises for faster results.

A Personal Training Group TRX class will be offered by the Ligonier YMCA. Class instructor will be Tommie Korneke. Tommie is qualified through the TRX Company to conduct the classes. She also is a certified Personal Trainer through the National Academy of Sports Medicine. Classes are limited to six participants. If interested contact the Ligonier YMCA for day, time and fees.

Tommie Korneke will also provide individual instruction on the TRX Suspension Trainer through the Ligonier YMCA's Personal Training Program.
